**MODEL 47H-1  
MAINTENANCE AND OVERHAUL INSTRUCTIONS  
TEMPORARY REVISION 47-15-1**

REFERENCE: Alert Service Bulletin 47-15-27

REASON: To improve integrity check of the throttle linkage assembly and graphically clarify proper safety wire installation of the throttle linkage assembly.

**SAFETY WIRING OF THROTTLE CONTROL LINKAGE ASSEMBLY**

Revise the Maintenance and Overhaul Instructions as follows and record this Temporary Revision on the "RECORD OF ACTIVE INTERIM & TEMPORARY REVISIONS" page:

- Add the "RECORD OF ACTIVE INTERIM & TEMPORARY REVISIONS" (pages TR1 through TR3, which are included on the last three pages of this Temporary Revision) immediately prior to the "LIST OF REVISED PAGES ISSUED" (page A) in the M&O manual. The Interim & Temporary Revisions shown on pages TR1 through TR3 are active for the latest revision to the 47H-1 M&O manual dated 1 December 1958. Review the M&O manual and the SB47 website for these and for any other active Temporary Revisions and record them on the "RECORD OF ACTIVE INTERIM & TEMPORARY REVISIONS" pages.
- Section I, Daily Inspection, Page 1-34, Rev Original, 15 May 1955  
**FUEL, OIL AND IGNITION SYSTEMS AND ENGINE COMPARTMENT**  
Add new Step 7:
  7. Inspect throttle, mixture, carburetor heat and fuel shut-off controls for general condition and security. Check controls for freedom of operation and full operating range. Check the throttle linkage-carburetor attachment for condition and security and for the presence and correct installation of the safety wire.
- Section III, Page 3-15, Rev Original, 15 May 1955  
Revise Figure 3-13 as shown on page 2 of this Temporary Revision:

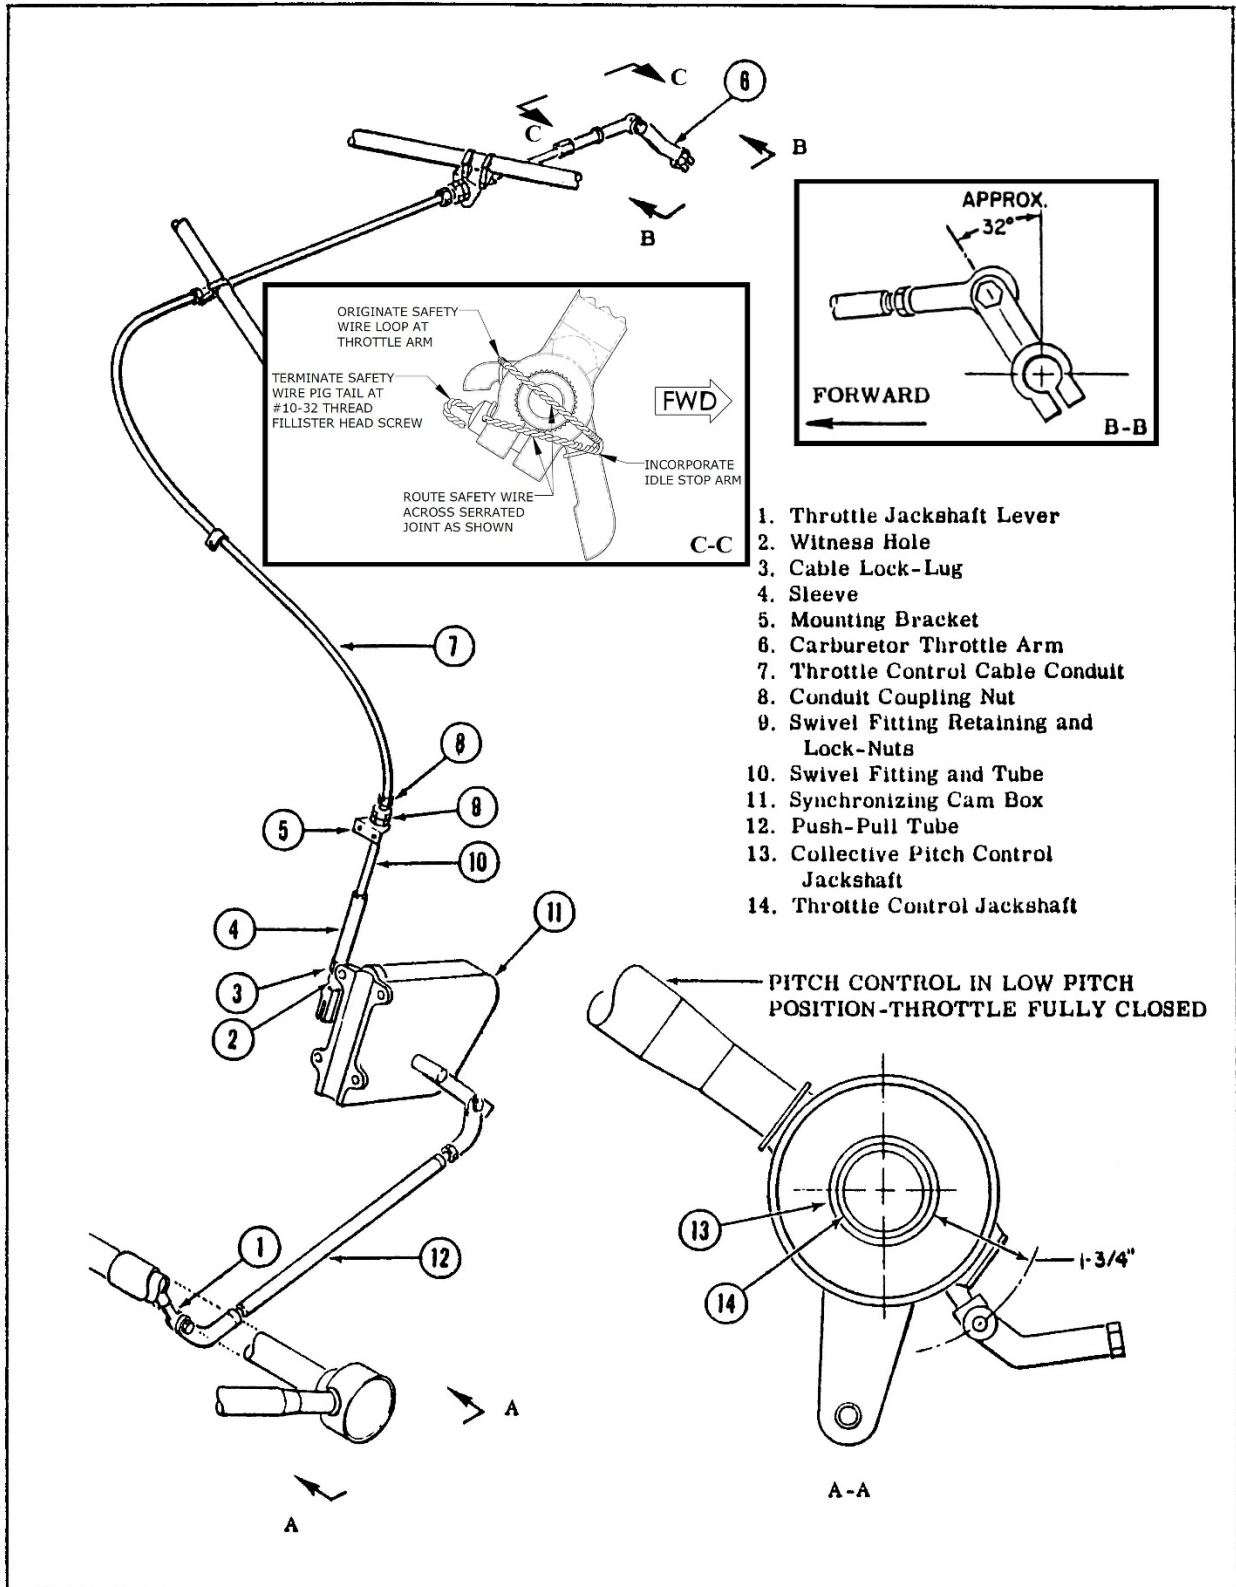

Figure 3-13. Adjusting Throttle Linkage
